

Raam Kumar

Raam Kumar
Testing Delivery Manager
HCL Technologies

Raam Kumar is a Testing Delivery Manager for a large capital markets account in HCL Technologies. He has around 13 year experience in testing practice and has handled large engagements in Time & Material, Core-Flexi, Output-based and Catalogue-based pricing models. He worked for more than 5 years in client location in the US and Europe.

Raam Kumar has expertise in implementing thought leadership solutions like “In Process Automation”, “Service Virtualization”, “Testing Delivery Industrialization” and other “Shift Left Initiatives”

Leader of the Technology Research Council (TRC) as part of the successful CMMI Level 5 certification for the HCL Testing Organization. He has strong expertise in RFP process – handling large testing deals up to 100mn EUR

Raam Kumar has participated in multiple conferences as Guest Speaker – recent ones being “India Testing week, Bangalore” on “Next generation testing” & “PES Engineering College, Bangalore” on “Build Integration Automation Testing”.
